

4G Vertical Switch Plate - Antique Brass

13635

This four-gang switch plate works with any of our toggle switches or our rotary dimmer switch.

Our vertical design offers a look that's less common than the industry-standard horizontal style.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- Made from solid brass
- Ultra-slim 1.5mm, flush-fit plate
- You'll need to use our metal [2x single back box](#) with this switch
- Metal die-cast chassis
