

## Double Pole Toggle Switch - Antique Brass

16244

20A Double Pole Switches are commonly used to control high powered household appliances.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- Patented switch mechanism engineered to give a solid, satisfying click
- Tested to one million cycles to guarantee longevity
- Rated to 20A
- 20AX 250V
- Complies with BSEN60669-1
