

**4G Mixed Switch 2T2D - Polished Nickel**

11596

Use two standard toggle switches and two dimmer knobs on one plate with our mixed switch design.

Powered by the latest dimmer technology, the smooth rotary style controls let you set the mood from morning to night.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Patented switch mechanism engineered to give a solid, satisfying click
- Tested to one million cycles to guarantee longevity
- Anti-flickering/buzzing
- Suitable for trailing or leading edge modes
- Made from solid brass
- Match with [spotlights](#), [door handles](#) and more from the polished nickel collection
- We recommend using a [35-47mm back box](#) with this switch
- Dimensions: H86mm x W146mm x D45mm. Dimmer length is 20mm.
- Switches rated to 20A
- The switch plate sits 1.5mm from the wall
- Secured with a metal ring without visible tool marks
- Metal die-cast chassis
- All dimmers have built in thermal and short circuit protection
- Minimum brightness can be set, which avoids any bulb flicker
- Trailing or leading edge dimming control .Trailing edge is the default setting and is recommended to prolong LED life
- Soft start operation which protects the bulbs
- Two dimmers cannot be combined to control the same light. Use toggle switches in combination with a dimmer switch
- Complies with BS EN 60669-1
- 230-250V~50Hz
- 5-150W LED's 10-350W incandescent bulbs
