

Centre Retractive Toggle Switch - Polished Nickel

11020

Centre Off Retractive Switch, could be used to operate an electric blind. I.e. 'up' to raise the blind and 'down' to lower it. The switch is sprung to always reset to 'off' in the centre.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Patented switch mechanism engineered to give a solid, satisfying click
- Tested to one million cycles to guarantee longevity
- Rated to 20A
- 20AX 250V
- Complies with BSEN60669-1
- All hardware is made from solid brass
