

## Claremont Small Wall Light Fluted Glass - Antique Brass

18462

Designed to be used either side of bathroom mirrors or feature frames, the Claremont allows 360 degrees of light. Its long, slim shape looks great in both modern and traditional homes. Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box. This fluted glass shade creates a diffused, anti-glare light that looks timeless on your walls.
