

Ealing Surface Spotlight - Antique Brass

13804

Our wall-mounted Ealing surface spotlight is designed to be directed downwards to illuminate garden paths, flowerbeds and the like.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.
