- 5 x Toggle & 3 x Dimmer
- 6 x Toggle & 2 x Dimmer
- 7 x Toggle & 1 x Dimmer

Once you have selected the correct plate, please continue to the collection page and select appropriate switches.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- **Antique brass takes 1-3 months to darken & mature. Photography shows products at 1 month old.**
- 1.5mm Solid brass front plate
- Metal die-cast back plate to hold switch modules together
- Dimensions; h165mm x w146mm x d40mm.
- Corston Antique brass products are hand finished at our Wiltshire headquarters on a per order basis. Please allow an extra 5 days from order date for the finishing process
- Corston 8G switches **must** be fitted with Corston 8G back boxes.

Please note when selecting a dimmer you must select dimmer module antique brass for metal plate
