

1G 50mm Module Plate - Bronze

16739

Empty 1G Module finished in Bronze.

All hardware is machined from solid brass which gives a superb level of detail and weight. The plate is pressed from 1.5mm Solid brass sheet, designed to sit extremely flush against the wall.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Die-cast metal module chassis
- Bronze screws x2
- We recommend a 35-47mm deep back box
- Dimensions; h86mm x w86mm x d36mm
