

1G 25mm Module Plate - Clear White

13668

Empty 1G Half Module Clear plate.

The clear backplate is made from 2mm transparent polycarbonate, which gives the illusion of the outlet being built into the wall and is very discreet. We supply the switch with a paper template for to either paint over with your chosen wall colour or to use as a template for wallpaper.

- Die-cast metal module chassis
- We recommend a 35-45mm deep back box
- Choice of black or white screws
- Paint or wallpaper behind the polycarbonate
