

1G Architrave Two Way Toggle Switch - Clear Polished Nickel

11291

Designed to fit where standard switches can't, this Toggle Switch is the perfect option for between two door frames or inside cupboards.

The clear plate is made from 2mm transparent polycarbonate, which gives the illusion of the outlet being built into the wall.

It comes with a paper template for you to either paint over with your chosen wall colour, or to use as a template for wallpaper.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Patented switch mechanism engineered to give a solid, satisfying click
- Tested to one million cycles to guarantee longevity
- Solid brass controls
- Designed in-house
- Match with [spotlights](#), [door handles](#) and more from the polished nickel collection
- We recommend using a [35mm back box](#) with this switch
- Dimensions: H86mm x W40mm x D42mm. Toggle length is 17mm
- Switches rated to 20A
- 230-250V~50Hz
- Complies with BS EN 60669-1
- The switch plate sits 1.5mm from the wall
- Secured with a metal ring without visible tool marks
- Metal die-cast chassis
