

2G 100mm Module Plate - Antique Brass

14748

Empty 2G Module hand finished in Antique brass.

All hardware is machined from solid brass which gives a superb level of detail and weight. The plate is pressed from 1.5mm Solid brass sheet, designed to sit extremely flush against the wall.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- Die-cast metal module chassis
- Antique brass Screws x2
- We recommend a 47mm deep back box
- Dimensions; h86mm x 146mm x d35mm
