

## 2G Two Way Rocker Slimline Switch - Clear Bronze Black

19698

This two-gang, two-way, slimline rocker switch in Bronze is perfect for small spaces like cupboards and in between doors, or anywhere you want a sleeker look. Like all our switches, it sits flush to the wall.

The clear plate is made from slim polycarbonate. It comes with a paper template that you can either paint over or use to cut out wallpaper, which blends the switch into the wall.

The rocker switches themselves are made from solid brass to create perfectly crisp edges.

Use a two-way rocker switch where you want to simply turn a lighting circuit on and off. You can have up to two separate switches around the room to control one circuit. For three or more, add an intermediate switch.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Engineered for a satisfying click
- Comes with a bespoke back box
- Match with lighting and hardware in our Bronze finish
- Dimensions: H86mm x W70mm x D32mm.
- Switches Rated to 16A
