

2G Two Way Toggle Slimline Switch - Clear Bronze

15360

Our range of slimline switches have narrow 70mm wide faceplates for a sleek look and feel.

They're perfect for smaller spaces like cloakrooms or coat cupboards, or anywhere you'd like your fittings to be slightly more discreet.

This 2G Toggle Switch is a modernised version of the timeless dolly design that'll add character to any room.

The clear plate is made from 2mm transparent polycarbonate, which gives the illusion of the outlet being built into the wall.

It comes with a paper template for you to either paint over with your chosen wall colour, or to use as a template for wallpaper.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.
