

2G Mixed Slimline Switch 1T1D - Polished Nickel

18563

Our range of slimline switches have narrow 70mm wide faceplates for a sleek look and feel.

They're perfect for smaller spaces like cloakrooms or coat cupboards, or anywhere you'd like your fittings to be slightly more discreet.

Powered by the latest technology, the rotary style dimmer control lets you set the mood from morning to night.

The classic toggle flicks from top to bottom with a satisfying click.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Designed in-house
- Made from solid brass
- Anti-flickering/buzzing
- Suitable for trailing or leading edge modes
- Comes with bespoke back box for easy installation
- Match with [spotlights](#), [door handles](#) and more from the polished nickel collection
- Dimensions: H86mm x W70mm x D42mm. The toggle length is 17mm.
