

Two Way Dimmer & USB A+C Slimline Switch - Polished Nickel White

14070

Our range of slimline switches have narrow 70mm wide faceplates for a sleek look and feel.

Powered by the latest technology, the rotary style dimmer control lets you set the mood from morning to night.

The USB charging point makes this perfect switch for your bedside or kitchen counters.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

Choose sockets with white inserts for a complementing finish that works well with pale or neutral accents.

- Made from solid brass
- Anti-flickering/buzzing
- Suitable for trailing or leading edge modes
- Comes with bespoke back box for easy installation
- Match with [spotlights](#), [door handles](#) and more from the polished nickel collection
