

1G Double Pole Toggle Switch - Bronze

10450

A Double Pole Switch gives an extra level of safety by interrupting both the live and neutral wires. They're often used to connect appliances in kitchens for safe servicing.

All our plates are machined from solid brass which gives a superb level of detail and weight.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Patented switch mechanism engineered to give a solid, satisfying click
- Tested to one million cycles to guarantee longevity
- Made from solid brass
- Screwless design
- Match with [spotlights](#), [door handles](#) and more from the Bronze collection
- We recommend using a [35-47mm back box](#) with this switch
