

## 2G Retractive Toggle Switch - Clear Antique Brass

12201

A Retractive Toggle Switch sits in the top position and springs back up after it's pressed.

Use with an Inline on each circuit to change the brightness of the same light with a press and hold of the toggle.

This 2G Toggle Switch is a modernised version of the timeless dolly design that'll add character to any room.

The clear plate is made from 2mm transparent polycarbonate, which gives the illusion of the outlet being built into the wall.

It comes with a paper template for you to either paint over with your chosen wall colour, or to use as a template for wallpaper.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- Solid brass controls
- Designed in-house
- Screwless design
- Match with [spotlights](#), [door handles](#) and more from the Antique Brass collection
- We recommend using a [35-47mm back box](#) with this Toggle Switch
- Dimensions: H86mm x W86mm x D42mm. The toggle length is 17mm.
- Switches rated to 20A
- 230-250V~50Hz
- Complies with BS EN 60669-1
- The switch plate sits 1.5mm from the wall
- Secured with a metal ring without visible tool marks
- Metal die-cast chassis
