

Warwick Thumbturn - Polished Nickel

10688

Secure your rooms with discreet but sturdy fittings that match every other part of your interior doors.

They're designed to sit neatly below a [Poplar Door Knob](#), with a coin turn fixture for the outside.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

Matching every part of your door has never been easier.

- Made from sturdy solid brass
- Comes with 5mm Mortice spindle
- Use with our locks and door handles from the [Polished nickel collection](#)
