

Apsley Sprung Door Handle - Antique Brass

10903

The tapered lever handle on our Apsley design is sleek and simple, just like the low-profile, screwless rose that we've paired this version with.

The handle comes with a sprung mechanism inside which is strong enough to take the weight of the solid brass and stop it sagging over time. It means you can pair it with any latch.

There's also no danger of it coming away in your hand – the spindle is threaded onto the handle which holds it in place.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- Low-profile rose with concealed screws
- Super smooth turn thanks to self-lubricating, high-tolerance bushings
- Sold in a pair
- Must be installed using our [45mm Forstner drill bit](#) and [door handle retro fitting kit](#)
- Dimensions: handle W110mm x H64mm; rose dia. 55mm
- Designed for use with a tubular latch or mortice lock
- Supplied with Corston sprung mechanism
- Suitable for interior doors only
- Minimum door thickness 35mm; maximum door thickness 45mm (with supplied fixings)
- Accepts 8mm Corston spindle (supplied)
