

Apsley Fixed Door Handle - Polished Nickel

18708

The tapered lever handle on our Apsley design is sleek and simple, just like the low-profile, screwless rose that we've paired this version with.

This version of Apsley comes with a fixed spindle. It's normally used on double doors to give a solid fix to the handle on the inactive door. You can push or pull it, but it won't turn.

There's also no danger of the handle coming away in your hand – the spindle is threaded onto the handle which holds it in place.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.
