

Onslow Fixed Door Knob - Polished Nickel

12342

Our flat-fronted Onslow door knob is a contemporary alternative to our beehive design.

This version of Onslow comes with a fixed spindle. It's normally used on double doors to give a solid fix to the handle on the inactive door. You can push or pull it, but it won't turn.

There's also no danger of the knob coming away in your hand – the spindle is threaded onto the handle which holds it in place.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.
