

Harper T-Bar Unsprung Door Handle - Polished Nickel

18467

Our solid brass Harper T-bar door handle in polished nickel is a sleek, architectural alternative to a door knob, inspired by Belgian hardware.

It's a versatile design, but will especially suit more minimal interiors.

This version of the Harper T-bar is unsprung, which means you can use it with an existing sprung latch. To make sure it stays easy to turn, we'd recommend using a lightly sprung latch.

There's also no danger of the handle coming away – the spindle is threaded onto the handle which holds it in place.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Low-profile rose with concealed screws
- Super smooth turn thanks to self-lubricating, high-tolerance bushings
