

6G Two Way Dimmer Switch - Polished Nickel

14338

Powered by the latest technology, the rotary style dimmer switch lets you set the mood on six different lights.

All our plates are machined from solid brass which gives a superb level of detail and weight.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Anti-flickering/buzzing
- Suitable for trailing or leading edge modes
- Made from solid brass
- Match with [spotlights](#), [door handles](#) and more from the polished nickel collection
- You'll need to use our [2+2 Portrait Back Box](#) with this switch
- Dimensions; H166mm x W146mm x D45mm. Dimmer height is 20mm
- All dimmers have built in thermal and short circuit protection
- Minimum brightness can be set, which avoids any bulb flicker
- Trailing or leading edge dimming control .Trailing edge is the default setting and is recommended to prolong LED life
- Soft start operation which protects the bulbs
- Two dimmers cannot be combined to control the same light. Use toggle switches in combination with a dimmer switch
- Complies with BS EN 60669-1
- 230-250V~50Hz
- 5-150W LED's 10-350W incandescent bulbs
