

8G Two Way Dimmer Switch - Clear Bronze

10129

Powered by the latest technology, this rotary style Dimmer Switch lets you set the mood on eight different lights.

All our plates are machined from solid brass which gives a superb level of detail and weight.

The clear plate is made from 2mm transparent polycarbonate, which gives the illusion of the outlet being built into the wall.

It comes with a paper template for you to either paint over with your chosen wall colour, or to use as a template for wallpaper.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Anti-flickering/buzzing
- Suitable for trailing or leading edge modes
- Solid brass controls
- Match with [spotlights](#), [door handles](#) and more from the Bronze collection
- You'll need to use our [2+2 Portrait Back Box](#) with this switch
- Dimensions; H166mm x W146mm x D45mm. Dimmer height is 20mm
- All dimmers have built in thermal and short circuit protection
- Minimum brightness can be set, which avoids any bulb flicker
- Trailing or leading edge dimming control .Trailing edge is the default setting and is recommended to prolong LED life
- Soft start operation which protects the bulbs
- Two dimmers cannot be combined to control the same light. Use toggle switches in combination with a dimmer switch
- Complies with BS EN 60669-1
- 230-250V~50Hz
- 5-150W LED's 10-350W incandescent bulbs
