

5A Light Socket - Polished Nickel Black

13416

Conveniently control your lamps through the room lighting circuit with the neat 5A Light Socket.

All hardware is machined from solid brass which gives a superb level of detail and weight.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

Choose sockets with black inserts for a contrasting look that goes well with black appliances and other dark tones.

- Made from solid brass
- Designed in-house
- Match with [spotlights](#), [door handles](#) and more from the polished nickel collection
- We recommend using a [35-47mm back box](#)
- Dimensions; H86mm x W86mm x D27mm
