

45A Cooker Switch - Polished Nickel White

15359

This Cooker Switch is ideal for high current appliances such as double ovens and induction hobs, and can be matched with all your other kitchen switches.

All our plates are machined from solid brass which gives a superb level of detail and weight.

Choose sockets with white inserts for a complementing finish that works well with pale or neutral accents.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Made from solid brass
- Designed in-house
- Match with [spotlights](#), [door handles](#) and more from the polished nickel collection
- We recommend using a [35-47mm back box](#) with this switch
