

## 1G Slimline Rocker Switch Plate - Bronze

18128

Using our switch components, you can create any combination of plate and switch that you need.

This 1G slimline plate works with any of our rocker switches in the Bronze finish.

It's made from solid brass to create perfectly crisp edges and the 1.5mm flush-fit profile.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Comes with a bespoke back box
- Match with lighting and hardware in our Bronze finish
