

Two Way Rocker Switch - Bronze Black

12648

Using our switch components, you can create any combination of plate and switch that you need.

This Bronze-finished two way rocker switch is made from solid brass to create perfectly crisp edges.

Use a two-way rocker switch where you want to simply turn a lighting circuit on and off. You can have up to two of these switches on one circuit. For three or more, add an intermediate switch.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Engineered for a satisfying click
- Works with either our solid brass switch plates in the Bronze finish or our Clear Black plates
- Switches Rated to 16A
- 230-250V ~ 50Hz
- Complies with BS EN 60669-1
