

2G Blank Plate - Paintable

13980

This two-gang blank plate is ideal for covering junction boxes or unused back boxes and wiring.

It's just 1.5mm thick and sits flush to the wall. We've finished it with etch primer that can be coated in the same paint as your walls for a seamless look that blends right in.

- Front plate made from solid brass
- Etch primer allows paint to adhere well for a seamless custom finish
- Use with our metal or recycled plastic double back boxes
