

## Shaver Socket - Polished Nickel White

19752

Safely charge an electric shaver or toothbrush in the bathroom with this socket.

The front plate is just 1.5mm thick and sits flush to the wall.

The insert around the socket is made from a low-sheen plastic with a slightly textured finish. It comes in white (like this one) or black.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Front plate made from solid brass
- Use with our metal or recycled plastic double back boxes
- Dimensions: H146mm x W86mm x D45mm
- 230V + 115V sockets. Only one socket can be used at a time.
- IP20 rated
- The socket plate sits 1.5mm from the wall
- Metal die-cast chassis
