

6G Two Way Rocker Switch - Bronze Black

12876

This six-gang, two-way rocker switch in our bronze finish sits flush to the wall. The front plate is also just 1.5mm thick.

The plate and rockers are all made from solid brass to create perfectly crisp edges.

Use a two-way rocker switch where you want to simply turn a lighting circuit on and off. You can have up to two separate switches around the room to control one circuit. For three or more, add an intermediate switch.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Engineered for a satisfying click
- Match with lighting and hardware in our bronze finish
- You'll need to use our [metal or recycled plastic 2x double portrait back box](#) with this switch
- Dimensions: H166mm x W146mm x D32mm.
