

Single Socket UK - Bronze Black

18936

Corston sockets are designed to blend into a room. So we've rounded off any harsh corners and made the plate fit nicely against any wall.

The switch itself has a reassuringly sturdy click.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.
