

Single French Power Module Round - Antique Brass White

39483

We've engineered this single French socket to be as sleek as possible.

The antique brass-finished front plate is only 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box. The plastic insert around the socket itself has a low-sheen, slightly textured finish.

- Patented electrical system engineered to make our signature flush-fit design possible
- Solid brass plate
- Coordinates with our hardware and lighting
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- H80mm x W222mm x D46mm
- The plate sits 1.5mm from the wall
- Secured with spring clips to allow for a screw-less finish
- Metal die-cast chassis
- Sockets rated to 16A
- 230-250V~50Hz
