

## Double 2x Switch & 1x Module Plate Round EU - Antique Brass

30153

Using our components, you can create any combination of switches or sockets that you need.

This double 2x switch and 1x module plate works with two of our antique brass toggle switches and one of our round socket modules.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass (rather than plastic wrapped in metal) for crisp edges
- Can be fitted horizontally or vertically
- Ultra-slim 1.5mm, flush-fit plate
- Screwless face
- Must be installed with our [double back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Metal die-cast chassis
- Must be installed with our double back box
