

Double 2x Toggle & French Module Round - Clear Antique Brass White

35266

This double 2x toggle switch and French socket is just 2mm thick, so it really is pretty invisible on the wall. It's a great option for your bedside or kitchen.

We make our clear collection from polycarbonate, which is more flexible and durable than the usual acrylic. The toggles are made from solid brass in our antique brass finish.

Use a two-way switch where you want to simply turn a circuit on and off. You can have up to two of these on one circuit. To control the circuit from three or more places, add an intermediate switch.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box. The white plastic insert around the socket itself has a low-sheen, slightly textured finish.

- Patented electrical system engineered to make our signature flush-fit design possible
- Transparent polycarbonate front plate
- Works with paint or wallpaper
- Streamlined toggle with a satisfying click
- Must be installed with our [double back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H80mm x W151mm x D41mm; toggle length 15mm
- Switches & sockets rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The plate sits 2mm from the wall
- Metal die-cast chassis
