

Double Toggle & French Module Round - Polished Nickel White

35511

We've engineered this double toggle switch and French socket to be as sleek as possible. It's a great option for your bedside or kitchen.

The front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

Use a two-way switch where you want to simply turn a circuit on and off. You can have up to two of these on one circuit. To control the circuit from three or more places, add an intermediate switch.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes. The white plastic insert around the socket itself has a low-sheen, slightly textured finish.

- Patented electrical system engineered to make our signature flush-fit design possible
- Solid brass front plate
- Streamlined toggle with a satisfying click
- Must be installed with our [double back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H80mm x W151mm x D41mm; toggle length 15mm
- Switches & sockets rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The plate sits 1.5mm from the wall
- Secured with spring clips to allow for a screwless finish
- Metal die-cast chassis
