

**Double 2x Switch & 1x Module Plate Round EU - Polished Nickel**

39543

Using our components, you can create any combination of switches or sockets that you need.

This double 2x switch and 1x module plate works with two of our polished nickel toggle switches and one of our round socket modules.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass (rather than plastic wrapped in metal) for crisp edges
- Can be fitted horizontally or vertically
- Ultra-slim 1.5mm, flush-fit plate
- Screwless face
- Must be installed with our double back box
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Metal die-cast chassis
- Must be installed with our double back box
