

Single 2x TV Module – Paintable Black

34787

We've engineered this single 2x TV socket to be as sleek as possible.

The front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look. We've finished it with etch primer that can be coated in the same paint as your walls for a seamless look that blends right in.

Use this TV socket to connect up to two coaxial cables to an aerial.

The low-sheen, slightly textured plastic inserts around the sockets come in black (like this one) or white.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass
- Etch primer allows paint to adhere well for a seamless custom finish
- Screwless design
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H80mm x W80mm x D17mm
- Sockets rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The plate sits 1.5mm from the wall
