

## Single Toggle Switch (Ret) - Clear Bronze

30912

This single retractive toggle switch is just 2mm thick and has a screwless face, so it really is pretty invisible on the wall.

We make our clear collection from polycarbonate, which is more flexible and durable than the usual acrylic. The toggle is made from solid brass in our bronze finish.

A retractive switch flicks back into the top 'off' position when you let go. You can use it for things like doorbells or in-sink food waste grinders. Or, use it with an in-line dimmer module to dim lights. Press and hold to dim up. Then press and hold again to dim down.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Patented electrical system engineered to make our signature flush-fit design possible
- Works with paint or wallpaper
- Streamlined solid brass toggle inspired by traditional dolly switches
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H80mm x W80mm x D23mm. The toggle length is 15mm.
- Switches rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The switch plate sits 2mm from the wall
- Secured with a metal ring without visible tool marks
