

## Single 2x HDMI Module - Polished Nickel Black

31121

We've engineered this single 2x HDMI socket to be as sleek as possible.

The polished nickel-finished front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

This HDMI socket is handy behind the TV for tidying cables. Use it to plug in up to two HDMI devices (like set top boxes), then trace the wires behind the wall and use a second socket to connect in behind the screen.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes. The plastic insert around the socket itself has a low-sheen, slightly textured finish.

- Patented electrical system engineered to make our signature flush-fit design possible
- Solid brass plate
- Coordinates with our hardware and lighting
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- H80mm x W222mm x D46mm
- The plate sits 1.5mm from the wall
- Secured with spring clips to allow for a screw-less finish
- Metal die-cast chassis
- Sockets rated to 16A
- 230-250V~50Hz
