

Double 4x Vertical Switch Plate EU - Bronze

31316

Using our components, you can create any combination of switches that you need.

This double 4x vertical switch plate works with any four of our bronze toggle switches. If you'd like to add a rotary dimmer switch, you'll need to use our double 2x switch plate, which you can fit in a vertical position.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass (rather than plastic wrapped in metal) for crisp edges
- Ultra-slim 1.5mm, flush-fit plate
- Screwless face
- Must be installed with our [double back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
