

## Two Way Toggle Switch EU - Bronze

31432

Using our switch components, you can create any combination of plate and switch that you need.

Use this bronze two-way toggle switch where you want to simply turn a lighting circuit on and off. You can have up to two of these switches on one circuit. For three or more, add an intermediate switch.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass
- Engineered for a satisfying click
- Must be used with our plates and back boxes
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
