

Single Toggle Switch (Ret) - Bronze

32016

We've engineered this single retractive toggle switch to be as sleek as possible.

The bronze-finished front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

A retractive switch flicks back into the top 'off' position when you let go. You can use it for things like doorbells or in-sink food waste grinders. Or, use it with an in-line dimmer module to dim lights. Press and hold to dim up. Then press and hold again to dim down.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass
- Streamlined toggle inspired by traditional dolly switches
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H80mm x W80mm x D23mm. The toggle length is 15mm.
- Switches rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The switch plate sits 1.5mm from the wall
- Secured with a metal ring without visible tool marks
