

Single RJ45 & HDMI Module - Bronze Black

32510

We've engineered this socket to be as sleek as possible.

The bronze-finished front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

Use this socket to plug in one HDMI and one RJ45 (also known as an ethernet) cable behind a TV or computer.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights. The plastic insert around the socket itself has a low-shine, slightly textured finish.

- Patented electrical system engineered to make our signature flush-fit design possible
- Solid brass plate
- Coordinates with our hardware and lighting
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- H80mm x W222mm x D46mm
- The plate sits 1.5mm from the wall
- Secured with spring clips to allow for a screw-less finish
- Metal die-cast chassis
- Sockets rated to 16A
- 230-250V~50Hz
