

Triple 3x Dimmer Switch - Polished Nickel

32718

We've engineered this triple 3x dimmer switch to be as sleek as possible.

The front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

There's also a collar underneath each rotating knob to hide all the working parts.

The plate, knobs and collars are all made from solid brass (rather than plastic wrapped in metal) to create perfectly crisp edges, and finished in polished nickel.

Used with a suitable bulb, our dimmers won't flicker or buzz. You can also set the minimum bulb brightness.

Polished nickel is our answer to chrome. It's a bit warmer, which we think is more versatile, so you can use it with warm or cool colour palettes.

- Patented electrical system engineered to make our signature flush-fit design possible
- Suitable for trailing or leading edge modes
- Must be installed with our [triple back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H222mm x W80mm x D26mm. The Knob protrudes 16mm from the plate
- Switches rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The switch plate sits 1.5mm from the wall
- Secured with spring clips to allow for a screw-less finish
