

Single 2x Keystone Switch Plate EU - Clear Black

33275

Using our components, you can create any combination of sockets that you need.

This clear plate works with any two of our black 20mm keystone modules, except our USB-C socket (these are bulkier behind so need to sit on their own – give our double 2x keystone plate a try).

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from polycarbonate, which is more flexible and durable than the usual acrylic
- Ultra-slim 2mm, flush-fit plate
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
