

Double 4x Toggle Switch - Clear Bronze

34501

This double 4x toggle switch is just 2mm thick and has a screwless face, so it really is pretty invisible on the wall.

We make our clear collection from polycarbonate, which is more flexible and durable than the usual acrylic. The toggle is made from solid brass in our bronze finish.

Use a two-way switch where you want to simply turn a circuit on and off. You can have up to two of these on one circuit. To control the circuit from three or more places, add an intermediate switch.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Patented electrical system engineered to make our signature flush-fit design possible
- Works with paint or wallpaper
- Streamlined solid brass toggle with a satisfying click
- Must be installed with our [double back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H80mm x W151mm x D23mm. The toggle length is 15mm.
- Switches rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The switch plate sits 2mm from the wall
- Secured with a metal ring without visible tool marks
