

Single 2x Switch Plate EU - Antique Brass

35751

Using our components, you can create any combination of switches that you need.

This single 2x switch plate works with any two of our antique brass toggle switches. If you'd like to add a rotary dimmer switch, you'll need to use our double 2x switch plate.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass (rather than plastic wrapped in metal) for crisp edges
- Ultra-slim 1.5mm, flush-fit plate
- Screwless face
- Must be installed with our single back box
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
