

## Single Toggle Switch (Cent) - Bronze

36181

We've engineered this single centre-retractive toggle switch to be as sleek as possible.

The bronze-finished front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

A centre-retractive switch flicks back to the centre 'off' position when you let go. You can use it for things like electronic blinds and, together with an in-line dimmer module, to dim lights.

Bronze is our boldest finish, but it isn't shiny or bright, so it has a subtle side to it too. It's a deep matt brown colour that's almost black in some lights.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass
- Streamlined toggle inspired by traditional dolly switches
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H80mm x W80mm x D23mm. The toggle length is 15mm.
- Switches rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The switch plate sits 1.5mm from the wall
- Secured with a metal ring without visible tool marks
