

Single Toggle Switch (Cent) - Antique Brass

37443

We've engineered this single centre-retractive toggle switch to be as sleek as possible.

The antique brass-finished front plate is just 1.5mm thick and sits flush to the wall. It attaches to the back plate using clips for a screwless look.

A centre-retractive switch flicks back to the centre 'off' position when you let go. You can use it for things like electronic blinds and, together with an in-line dimmer module, to dim lights.

Antique brass is what's called a 'living' finish because it reacts to the air and moisture around it, causing it to darken (especially in the areas you touch most). We've given it a head start by ageing it by hand, so it has that antique look right out the box.

- Patented electrical system engineered to make our signature flush-fit design possible
- Made from solid brass
- Streamlined toggle inspired by traditional dolly switches
- Must be installed with our [single back box](#)
- You'll also need our 9mm render trim for brick walls or 3mm plaster trim for skimmed plasterboard
- Use our precisely sized brick or plasterboard hole saw for easy installation
- Dimensions: H80mm x W80mm x D23mm. The toggle length is 15mm.
- Switches rated to 16A
- 230-250V~50Hz
- Complies with IEC 60669-1
- The switch plate sits 1.5mm from the wall
- Secured with a metal ring without visible tool marks
